All things considered, U-verse's prices are stellar, especially knowing that it has just as many channels as many more deluxe services. However, just like most TV providers, U-verse costs inflate a substantial amount after the first year, as seen in the table below. The good news: you are only signing a one-year contract. Yes, that's right.

Unfortunately, with U-Verse's lack of frame-by-frame advancing, I can't be certain, but aren't HD shows recorded at 59.94 fps? Besides, a channel cannot switch between 59.94 and 29.97 fps - and even if it could, is it possible for the box and/or the TV to detect the difference and make the appropriate switch?
