We showed in the previous lecture that the equilibrium exchange rate is determined by the interest rates in each country.

Chapter 14: Money, Interest Rates, and Exchange Rates

- Interest rates: money pays little or no interest, so the interest rate is the opportunity cost of holding money instead of other assets, like bonds, which have a higher expected return/interest rate. ♦ A higher interest rate means a higher opportunity cost of holding money → lower money demand.
- Prices: the prices of goods and ...
