Category is the method to organize information by similarity or relatedness. Think back to the collection lists I mentioned earlier. Hierarchy is about organizing information that is used collectively to compare things. Think t-shirt sizes or how you'd rate food or a product or service. Everyone uses that same metric to organize information.

## **How to Organize Information and Tidy up Your Thoughts**

One of the easiest ways to organize your thoughts is to capture them in a good old-fashioned list. Your list need not be complicated: you're just capturing information so you can process it in a little bit. Here's what to do: grab a piece of paper or a notebook along with a writing implement. Write down one thought per line.

Organize your belongings. Before you begin to figure out where everything should go, you should get a number of boxes and label them for different purposes. Crates or plastic bins will work just as well, but boxes are best because you can just recycle them when you're done organizing and won't have to deal with more clutter.

### **How To Organize just About Everything - Walsh, Peter ...**

TRAF (Toss, Refer, Action, File) is the core mindset when it comes to organizing thoughts, ideas, paperwork, digital files, wardrobe, yeah you get it, just about anything. The most effective way I've found to leverage TRAF is by categorizing everything that you are trying to organize into similar piles.
