object literal notation. Unfortunately, these good ideas are mixed in with bad and downright awful ideas, like a programming model based on global variables.

JavaScript: The Good Parts: The Good Parts: Douglas ...

Good Parts book about the DOM would be extremely challenging. JavaScript is most despised because it isn't some other language. If you are good in some other language and you have to program in an environment that only supports JavaScript, then you are forced to use JavaScript, and that is annoying. Most people in that situation don't even bother to learn JavaScript first, and then they are sur-

JavaScript: The Good Parts - web-profile

Douglas Crockford has the idea to highlight the good part of the language but also to warn the unsuspecting programmers of its bad parts. He deliberately select a subset of the language and
