Early modern human (EMH) or anatomically modern human (AMH) are terms used to distinguish Homo sapiens (the only extant Hominina species) that are anatomically consistent with the range of phenotypes seen in contemporary humans from extinct archaic human species. This distinction is useful especially for times and regions where anatomically modern and archaic humans co-existed, for example, in ...

En route, sudden tragedy strikes a Federation science station on the isolated planet Kota, and Captain Jean-Luc Picard has no qualms sending William Riker, Data, and Chief Medical Officer Beverly Crusher to investigate. But what begins as routine assignments for the two parties soon descends into chaos: Picard, Worf, and Deanna Troi must ...
