The EKG test will usually indicate if there are some issues with the person's heart. If there are some signs of heart disease, the physician may require further tests to determine what exactly is wrong. There are instances when the EKG will show some abnormalities, but this will not affect your current physical health.

As to the original subject of Prophecy testing. Once you've taken a test and passed it keep the password on file. A good agency can retrieve that test result if you give them the password then you don't have to take it again. If you don't pass it pull up the 'details' part. It will contain the questions and your incorrect answer.
