While mastering Thai is a lifetime's work, the basics of Thai are straightforward enough that you can very quickly pick up a working knowledge of the language and start using it in conversation. Plenty of things make Thai straightforward for beginners, especially when compared to some European languages, for example: Verbs are not conjugated.

### Thai For Beginners: How To Learn To Speak Thai From Scratch

The official language of Thailand, Thai is written with a syllabary-alphabet of 20 consonants and 24 vowels. The language has a tonal system of 5 tonemes: low, medial, high, descending and ascending. Although transliterations exist, the difficulty of transcribing its alpha syllabary into Latin characters makes it especially important to master the system of writing the language.
