The Government Of Risk Understanding

One of the most important decisions for any business, project, or individual is how much risk to take. The phrase "risk appetite" is often used to describe the level of acceptable risk, but there is no accepted definition for this term; even worse, there is confusion between risk appetite and other risk-related terms, especially risk attitude.

How much risk is too much risk? Understanding risk appetite

A new approach to risk. The authors suggest government adopts a three lines of defence model for managing risk, as is widespread in the corporate sector. The first line would be risk ownership units embedded in individual departments. The
