Carl Nielsen (1865–1931), now an internationally recognized composer, was the dominant figure in Danish music and musical life from the end of the 1890s until well into the 20th century. He had grown up in a small village on Funen but, by performing with folk musicians as a child and as a bugler in the army, he was able to enter the music ...

Music of Denmark - Wikipedia

The Psychodynamic Perspective By Robert Bornstein. Adelphi University. Originating in the work of Sigmund Freud, the psychodynamic perspective emphasizes unconscious psychological processes (for example, wishes and fears of which we're not fully aware), and contends that childhood experiences are crucial in shaping adult personality.
