You will also discover : the three times of power; the importance of an impeccable reputation; that manipulation is your best weapon and patience your best defense. Power is the ability to impose one's will in spite of obstacles. While it is often considered amoral and dangerous to society, it remains at the heart of all human relationships. Power relationships are therefore inevitable in society. Thus, each civilization presents itself as wiser than the previous one, but the same vices (greed, jealousy, revenge, betrayal) are inevitably present and provoke power struggles. He who wishes to renounce all power games is either condemned to impotence and misfortune, or is a skillful manipulator to be wary of. You will gain nothing by denying the omnipresence of power: this is an obvious fact that you must face. "Power" is a real survival manual for power, based on the experiences and works of the most illustrious men of power. Stop suffering, learn how to identify the behaviors of your opponents and how to establish your will thanks to the 48 laws of power! \*Buy now the summary of this book for the modest price of a cup of coffee! The 48 Laws of Power was written by Robert Greene and first published in 1998. It is often praised as one of the best books to read if you want to get ahead in life. This got me to thinking, "why isn't there anything like this for our community?" We have a lot of people talking about what we need to do, what we should do, and what we could do as a community, but nothing concrete that we could all sit down with, learn from, and relate to on an individual level. The 48 Laws of Black Empowerment was written to bridge the gap between individual action and a united black community. This book is broken down into six areas of importance to the black community. 1. Personal 2. Family 3. Finance 4. Community 5. Philanthropy 6. Activism Working to individually improve ourselves in these areas will automatically result in a shift in black community consciousness. While The 48 Laws of Power is a great book, it just wasn't written with our community or needs in mind. The 48 Laws of Black Empowerment is about cultivating success in business and life, while also helping our friends, family and community succeed with us. When one feels that he has no power over others or events, he is likely to be depressed. Everyone wants power. Those who pretend to have no desire for power are either deceiving themselves or attempting to deceive others. Power is like a drug that makes you stronger each time you taste it. The more you get, the more you want. Even though it is a fundamental human behavior, the desire for power is considered impolite and selfish. It is widely held that those who seek power must seem to have no interest in it, and on the contrary they must pretend to care only about others. The one who can disguise his pursuit of power with his care for others ends up becoming the most powerful. This seems paradoxical but the fact remains that you cannot honestly and forthrightly pursue power. You invariably have to disguise both your means and your ends. The 48 Laws of Power by Robert Greene is a collection of “laws” based on historical and philosophical anecdotes. These laws are amoral as they themselves don’t take into account any sense of right or wrong. Instead, the laws focus on how one can increase their influence over any situation, regardless of their moral consequences. This book explores the nuances of manipulating people around you for establishing power. The book focuses on how to gain power in any situation, regardless of whether it’s morally right or wrong, and it uses specific anecdotes from history to illustrate the “rules of power”. These laws may seem scandalously frank, but you can apply them without violating any of the strictures of public morality, which, according to Robert, is the way to get the best results. In his classic 16th-century treatise that justifies and praises manipulation and occasional brutality as the best tools for those who want to hold power, The Prince, Niccolo Machiavelli wrote, "It is much safer to be feared than loved." About five centuries later, Robert Greene wrote his book, The 48 Laws of Power, re-enforcing the Machiavellian interpretation of power and the means for achieving power. In his book, Robert Greene argues, "The need for power is so fundamental, so essentially human, that when you feel you have no power over people or events, you are likely to be depressed." Greene further describes the laws of power that will show readers how to gain power and influence. Both Machiavelli and Greene want us to believe that achieving and keeping power require coercion, dishonesty and manipulation. In direct contrast to the compassion-oriented management books that dominate today's business bestseller lists, *Mastering The 48 Laws of Power* is a Machiavellian treatise for the modern age. *Mastering The 48 Laws of Power* is also a multi-million-copy New York Times bestseller boasts the unique distinction of being quoted by such management luminaries as Jay Z, UGK, Kanye West, and Drake, and even featured in tattoos sported by the likes of Calvin Harris and DJ Premier. (50 Cent liked the book so much he went on to co-author the sequel.) *Mastering The 48 Laws of Power* has enjoyed similar popularity in diverse walks of life, from Wall Street to Hollywood to D.C. The author views everything through the lens of power, which results in a distinctly uncomfortable degree of honesty about why humans do what they do. He labels as disingenuous anyone who claims that we do what we do for reasons other than power and illustrates how people who try to "opt-out" of the game of power by championing honesty, equality, or naivety are actually leveraging a time-honored law of power themselves. In terms of format, the book is eminently readable. After each law, a slightly expanded summary of the meaning is included, followed by a historical incident that illustrates transgression of the law, then another historical anecdote about the observance of the law. The author finishes each law by expounding on the "keys of power," or the details about how to apply the law in practice, and cautioning us with the "reversal", or how the particular law may not apply in all situations. **GET A COPY NOW AND** Learn how to influence people and gain more control over every area of your life. **PLEASE NOTE:** This is a key takeaways and analysis of the book and NOT the original book. In the book's preface, Greene argues that, at least on the surface, the quest for power has been demonized, the end result of a culture that frowns upon those who seem too eager to get too far ahead in life. From Greene's perspective however, very little has changed in the time between the royal courts of old and the high-intensity board rooms of today; according to Greene, the people who amass the most power are those who can crush their enemies while appearing outwardly benevolent. The essence of Greene's perspective on power dynamics can be aptly summarized by President Teddy Roosevelt: "Speak softly and carry a big stick." **PLEASE NOTE:** This is key takeaways and analysis of the book and NOT the original book. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally").
