Translation and Censorship in Different Times and Landscapes Apr 17 2022 This volume is a selection of papers presented at the international conference on Translation and Censorship. From the 18th Century to the Present Day, held in Lisbon in November 2006. Although censorship in Spain under Franco dictatorship has already been thoroughly studied, the Portuguese situation under Salazar and Caetano has been, so far, almost ignored by the academic research. This is then an attempt to start filling this gap. At the same time, new case studies about the Spanish context are presented, thus contributing to a critical view of two Iberian dictatorial regimes. However other geographical and time contexts are also included: former dictatorships such as Brazil and Communist Czechoslovakia; present day countries with very strict censoring apparatus such as China, or more subtle censorial mechanisms as Turkey and Ukraine. Specific situations of past centuries are given some attention: the reception of Ovid in Portugal, the translation of English narrative fiction into Spanish in the 18th century, the translation of children literature in Victorian England and the emergence of the picaresque novel in Portugal in the 19th century. Other forms of censorship, namely self-censorship, are studied in this volume as well. "The book fits in one of the most innovative fields of research in translation studies, i.e. the study of social and political constraints on translation processes and translation functions. More specifically, the concept of censorship is crucial to the

understanding of these constraints, especially in spatio-temporal settings where translation exhibits conflicts between what is acceptable for and what is prohibited by a given culture. For that reason, detailed descriptive research is needed in as many situations as possible. It gives an excellent view on the complex mechanisms of censorship with regard to translation within a large number of modern European and non European cultures. In addition to articles devoted to cases dealing with China, Brazil, Great-Britain, Turkey, Ukraine or Czechoslovakia, Spain and Portugal occupy a prominent role. As a whole, the volume marks an important step forward in our growing understanding of the role of socio-political factors for the development and changes of translation policies. I highly recommend the publication." Prof. dr. Lieven D'hulst, Professor of Translation Studies at K.U.Leuven (Belgium).

The European Union and its Political Leaders Sep 10 2021 This book focuses on the impact of political leaders on the integration process led by the European Union. It aims at a better understanding of the European Union through the actions, contributions, and ideas of these outstanding characters to European integration and disintegration. By doing so, the book offers an entirely new perspective, presenting the actions of the main actors involved, their background, their historical time, their challenges and problems, and how they influenced the European Union's development. The authors in detail discuss different ideas connected to leaders, such as Jean Monnet and neo-functionalism, Spinelli and federalism or Churchill and the idea of cooperation. Furthermore, the book examines major policies and events, like the Common Agricultural Policy, the creation of the Euro as a consequence of the German reunification and Mitterrand's reactions, or Brexit and its connection to the impact of Margaret Thatcher. The global essence of the book makes it a must-read for students, researchers, and scholars interested in a better understanding of the European Union's integration process.

The Threads of Natural Law Jul 28 2020 The notion of "natural law" has repeatedly furnished human beings with a shared grammar in times of moral and cultural crisis. Stoic natural law, for example, emerged precisely when the Ancient World lost the Greek polis, which had been the point of reference for Plato's and Aristotle's political philosophy. In key moments such as this, natural law has enabled moral and legal dialogue between peoples and traditions holding apparently clashing world-views. This volume revisits some of these key moments in intellectual and social history, partly with an eye to extracting valuable lessons for ideological conflicts in the present and perhaps near future. The contributions to this volume discuss both historical and contemporary schools of natural law. Topics on historical

schools of natural law include: how Aristotelian theory of rules paved the way for the birth of the idea of "natural law"; the idea's first mature account in Cicero's work; the tension between two rival meanings of "man's rational nature" in Aquinas' natural law theory; and the scope of Kant's allusions to "natural law". Topics on contemporary natural law schools include: John Finnis's and Germain Grisez's "new natural law theory"; natural law theories in a "broader" sense, such as Adolf Reinach's legal phenomenology; Ortega y Gasset's and Scheler's "ethical perspectivism"; the natural law response to Kelsen's conflation of democracy and moral relativism; natural law's role in 20th century international law doctrine; Ronald Dworkin's understanding of law as "a branch of political morality"; and Alasdair Macintyre's "virtue"-based approach to natural law.

Sobre La Paz Perpetua (Spanish Edition)

Mar 28 2023 Sobre la paz perpetua es una obra política escrita por Immanuel Kant en 1795. Como se intuye por el título (también traducible por "Para la paz perpetua"), el objetivo de este tratado es encontrar una estructura mundial y una perspectiva de gobierno para cada uno de los estados en particular que favorezca la paz. El proyecto kantiano es un proyecto jurídico y no ético: Kant no espera que los hombres puedan volverse más buenos, sino que cree posible construir un orden jurídico tal, que coloque la guerra como algo ilegal, como ocurre dentro de los estados federales. La obra se compone de 6 artículos preliminares y 3 artículos definitivos y 2 suplementos alrededor de los cuales se desarrolla la reflexión. El título de la obra viene de la obra del Abad de Saint Pierre quien escribió un ensayo sobre el proyecto de una confederación europea llamado "La paz perpetua", que fue sintetizado y comentado por el filósofo político Jean Jacques Rousseau. Si bien no ha sido probado que Kant leyera ese texto de manera directa, se sabe que su novela favorita fue "Emilio, o de la educación" de J. J. Rousseau. En el libro V de dicha obra, Rousseau cita los comentarios del Abad de St. Pierre y resume su propuesta de manera sucinta. La misma estructura del Abad y el mismo fin de lograr la paz en una Europa unida son los motivos que impulsan a Kant. Otra historia menos probable es que el título es una ironía de Kant y que lo tomó de un dibujo que un hostelero había puesto en su casa: era la imagen de un cementerio y abajo la frase "paz perpetua". La estructura de obra puede ser entendida también como ironía literaria: tiene la forma de un tratado de paz, con artículos preliminares, definitivos y hasta una cláusula secreta.

Sobre la paz perpetua. Un esbozo filosófico Aug 21 2022 Sobre la paz perpetua. Un esbozo filosófico (Zum ewigen Frieden. Ein philosophischer Entwurf) es una obra política escrita en 1795 que analiza la posibilidad de encontrar un sistema mundial y también para cada país en particular que favorezca la paz. Se trata de un proyecto jurídico y no ético, ya que Kant no cree que los hombres puedan volverse mejores pero sí que se puede construir una estructura tal que, por ejemplo, califique la guerra como algo ilegal.

Paradoxes of Religious Toleration in Early Modern Political Thought May 06 2021 The early modern theories of religious toleration that were so influential on our own ways of thinking about religion and tolerance were ripe with paradox, ambiguity, inconsistency, hidden flaws, and blind spots. The scholars in this volume explore those weak points in the hope that identifying their causes may help us strengthen our own ideas and promote toleration in ways that can avoid those paradoxes.

Latin American Unification Apr 05 2021 This book investigates efforts to promote the political and economic unification of Latin America. Every generation in the region has known some effort toward these goals. There were four major stages. The first endeavors were undertaken by diplomats, the second by idealists, the third by technocrats and the fourth stage is now dominated by pro-unification political leaders. Efforts toward integration promote the economies and political stability of these countries—Latin Americans were among the first of the old “third world” people to advance such programs. The political

unification of Latin America has been stymied by the political class but this trend is currently being reversed with the Common Market of the South (MERCOSUR). The recent accession of Venezuela after a grueling political-ideological struggle (examined in the book) has spurred other countries to seek full membership in the group. It is now the third largest trade bloc in the world and is continuing to grow. Instructors considering this book for use in a course may request an examination copy here.

The Enigma of Good and Evil: The Moral Sentiment in Literature Dec 25 2022 Striking toward peace and harmony the human being is ceaselessly torn apart in personal, social, national life by wars, feuds, inequities and intimate personal conflicts for which there seems to be no respite. Does the human condition in interaction with others imply a constant adversity? Or, is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person? To what criteria should I refer for appreciation, judgment, direction concerning my attitudes and my actions as they bear on the well-being of others? At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts. Literature, which in its very gist, dwells upon disentangling in multiple perspective the peripeteia of our life-experience offers us a unique field of source-material for moral and ethical investigations. Literature brings preeminently to light the Moral Sentiment which pervades our life with others - our existence tout court. Being modulated through the course of our experiences the Moral Sentiment sustains the very sense of literature and of personal human life (Tymieniecka).

Spanish Literature, Crisis and Spectrality: Notes on a Haunted Canon Nov 12 2021

Author and Professor Dr. Pablo Valdivia analyzes the contradictions and complexities of the Spanish traditional canon from a transnational approach. Valdivia explores this particular canon as a 'haunted house' by focusing on the specific dialectics of presence, absence and (in)visibilization offered in relevant case studies: Jose Ricardo Morales, Cervantes or Jesus Carrasco, among others. Under the new term of 'disinherited literature', Valdivia advocates for coining critical categories that enrich the study of Spanish texts and shed new light on their radical specificities far from biased political and power strategic interests. Jews and Muslims in Contemporary Spain

Jun 19 2022 The book analyzes the place of religious difference in late modernity through a study of the role played by Jews and Muslims in the construction of contemporary Spanish national identity. The focus is on the transition from an exclusive, homogeneous sense of collective Self toward a more pluralistic, open and tolerant one in an European context. This process is approached from different dimensions. At the national level, it follows the changes in nationalist historiography, the education system and the public debates on national identity. At the international level, it

tackles the problem from the perspective of Spanish foreign policy towards Israel and the Arab-Muslim states in a changing global context. From the social-communicational point of view, the emphasis is on the construction of the Self-Other dichotomy (with Jewish and Muslim others) as reflected in the three leading Spanish newspapers.

Contemporary European Playwrights Sep 29 2020 Contemporary European Playwrights presents and discusses a range of key writers that have radically reshaped European theatre by finding new ways to express the changing nature of the continent's society and culture, and whose work is still in dialogue with Europe today. Traversing borders and languages, this volume offers a fresh approach to analyzing plays in production by some of the most widely-performed European playwrights, assessing how their work has revealed new meanings and theatrical possibilities as they move across the continent, building an unprecedented picture of the contemporary European repertoire. With chapters by leading scholars and contributions by the writers themselves, the chapters bring playwrights together to examine their work as part of a network and genealogy of writing, examining how these plays embody and interrogate the nature of contemporary Europe. Written for students and scholars of European theatre and playwriting, this book will leave the reader with an understanding of the shifting relationships between the subsidized and commercial, the alternative and the mainstream stage, and political stakes of playmaking in European theatre since 1989.

Hacia la paz perpetua Jan 26 2023 Roberto R. Aramayo presenta una nueva traducción española de *Hacia la paz perpetua*, un texto donde Kant explicita su compromiso político con los ideales aportados por el republicanismo de la Revolución francesa, cuya célebre triada hace suya convirtiendo a la libertad, igualdad e independencia o autonomía jurídicas en sinónimos de unos derechos inalienables e inherentes a todo el género humano. Nada más firmarse la Paz de Basilea en 1795, Kant decide parodiar el alambicado formato de los tratados al uso, añadiendo en la segunda edición un protocolo "secreto" donde se reivindica que se deje hablar a los filósofos, toda vez que la publicidad se presenta como piedra de toque para compulsar las normas injustas. Además de reivindicarse una nobleza integrada por funcionarios, a la que se accede por méritos y no por abolengo, asistimos aquí a un duelo simbólico entre las deidades romanas

representadas por Término y Júpiter, para ilustrar la significativa distinción kantiana entre moralista político y político moral.
