Celebrate Pride every day with the very first picture book to tell of its historic and inspiring role in the gay civil rights movement, from the author of the acclaimed *Pride: The Story of Harvey Milk and the Rainbow Flag*. A powerful and timeless true story that will allow young readers to discover the rich and dynamic history of the Stonewall Inn and its role in the LGBTQ+ civil rights movement--a movement that continues to this very day. In the early-morning hours of June 28, 1969, the Stonewall Inn was raided by police in New York City. Though the inn had been raided before, that night would be different. It would be the night when empowered members of the LGBTQ+ community--in and around the Stonewall Inn--began to protest and demand their equal rights as citizens of the United States. Movingly narrated by the Stonewall Inn itself, and featuring stirring and dynamic illustrations,

Stonewall: A Building. An Uprising. A Revolution is an essential and empowering civil rights story that every child deserves to hear. A collection of more than fifty hard-to-crack medical quandaries, featuring the best of The New York Times Magazine's popular Diagnosis column—now a Netflix original series “Lisa Sanders is a paragon of the modern medical detective storyteller.”—Atul Gawande, author of *Being Mortal* As a Yale School of Medicine physician, the New York Times bestselling author of *Every Patient Tells a Story*, and an inspiration and adviser for the hit Fox TV drama *House, M.D.*, Lisa Sanders has seen it all. And yet she is often confounded by the cases she describes in her column: unexpected collections of symptoms that she and other physicians struggle to diagnose. A twenty-eight-year-old man, vacationing in the Bahamas for his birthday, tries some barracuda for dinner. Hours later, he collapses on the dance floor with crippling stomach pains. A middle-aged woman returns to her doctor, after visiting two days earlier with a mild rash on the back of her hands. Now the rash has turned purple and has spread across her entire body in whiplike streaks. A young elephant trainer in a traveling

circus, once head-butted by a rogue zebra, is suddenly beset with splitting headaches, as if someone were “slamming a door inside his head.” In each of these cases, the path to diagnosis—and treatment—is winding, sometimes frustratingly unclear. Dr. Sanders shows how making the right diagnosis requires expertise, painstaking procedure, and sometimes a little luck. Intricate, gripping, and full of twists and turns, *Diagnosis* puts readers in the doctor’s place. It lets them see what doctors see, feel the uncertainty they feel—and experience the thrill when the puzzle is finally solved. The MznLnx Exam Prep series is designed to help you pass your exams. Editors at MznLnx review your textbooks and then prepare these practice exams to help you master the textbook material. Unlike study guides, workbooks, and practice tests provided by the textbook publisher and textbook authors, MznLnx gives you all of the material in each chapter in exam form, not just samples, so you can be sure to nail your exam. The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years

the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, *The Pig Book* proves one thing about Capitol Hill: pork is king! This text is an unbound, three hole punched version. In *Operations Management: An Integrated Approach, Binder Ready Version, 6th Edition*, Dan Reid and Nada Sanders have strengthened their commitment to improve the teaching and learning experience in the introductory operations management course. The text provides a solid foundation of Operations Management with clear, guided instruction and a balance between quantitative and qualitative concepts. Through an integrated approach, the authors illustrate how all business students will interact with Operations Management in future careers. Get to know Mayor Pete Buttigieg, a first-of-his-kind candidate running for a one-of-a-kind office, in Rob Sanders' inspiring picture book biography, featuring illustrations by Levi Hastings. When Pete Buttigieg announced he was running for president, he became the first openly gay candidate to run for the Democratic party’s presidential nomination and the first millennial ever to pursue the office. But before the nation knew him as “Mayor Pete,” he was a

boy growing up in a Rust Belt town, a kid who dreamed of being an astronaut, and a high schooler who wondered about a life of public service. Without a doubt, no one could have imagined who Peter Paul Montgomery Buttigieg, the boy who lived in a two-story house on College Street, would become. Through victories and defeats, and the changes that the seasons bring, the young boy from South Bend grew into a man devoted to helping others. *Mayor Pete: The Story of Pete Buttigieg* celebrates the life of an American who dared to be the first and who imagined a better world for everyone. *A Who Did It First? Book Never HIGHLIGHT a Book Again!* Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780803611931 . NEW YORK TIMES BESTSELLER • An insider account of activists, politicians, educators, and everyday citizens working to change minds, bridge divisions, and fight for democracy—from disinformation fighters to a leader of Black Lives Matter to Bernie Sanders and Alexandria Ocasio-Cortez and more—by the best-selling author of *Winners Take All* and award-winning former New York Times columnist “Anand Giridharadas shows the way we get real progressive change in America—by refusing to

write others off, building more welcoming movements, and rededicating ourselves to the work of changing minds.” —Robert B. Reich, best-selling author of *The System* The lifeblood of any free society is persuasion: changing other people’s minds in order to change things. But America is suffering a crisis of faith in persuasion that is putting its democracy and the planet itself at risk. Americans increasingly write one another off instead of seeking to win one another over. Debates are framed in moralistic terms, with enemies battling the righteous. Movements for justice build barriers to entry, instead of on-ramps. Political parties focus on mobilizing the faithful rather than wooing the skeptical. And leaders who seek to forge coalitions are labeled sellouts. In *The Persuaders*, Anand Giridharadas takes us inside these movements and battles, seeking out the dissenters who continue to champion persuasion in an age of polarization. We meet a leader of Black Lives Matter; a trailblazer in the feminist resistance to Trumpism; white parents at a seminar on raising adopted children of color; Bernie Sanders and Alexandria Ocasio-Cortez; a team of door knockers with an uncanny formula for changing minds on immigration; an ex-cult member turned QAnon deprogrammer; and, hovering menacingly offstage, Russian operatives clandestinely stoking Americans’ fatalism about one another. As the book’s subjects grapple with how to call out threats and injustices while calling in those who don’t agree with them but just might one

day, they point a way to healing, and changing, a fracturing country. This text is an unbound, binder-ready edition. In the 5th Edition of *Operations Management, Binder Ready Version* Dan Reid and Nada Sanders have strengthened their commitment to improve the teaching and learning experience in the introductory operations management course. The text provides a solid foundation of *Operations Management* with clear, guided instruction and a balance between quantitative and qualitative concepts. Through an integrated approach, the authors illustrate how all business students will interact with *Operations Management* in future careers. Updated with the latest practices, trends, and developments from the field, **PRINCIPLES OF SUPPLY CHAIN MANAGEMENT: A BALANCED APPROACH, 4E** guides students step by step through the management of all supply chain activity while addressing real-world concerns related to domestic and global supply chains. Comprehensive, one-of-a-kind coverage encompasses operations, purchasing, logistics, and process integration. The text follows the natural flow through the supply chain—resulting in one of the most balanced approaches available. Well-organized chapters demonstrate the practical applications of supply chain management in today’s workplace, and intriguing SCM Profiles provide abundant real-world business examples. In addition, the fourth edition includes revised and expanded end-of-chapter questions and problems.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This package includes a three-hole punched, loose-leaf edition of ISBN 9781118348512 and a registration code for the WileyPLUS course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires WileyPLUS. For customer technical support, please visit <http://www.wileyplus.com/support>. WileyPLUS registration cards are only included with new products. Used and rental products may not include WileyPLUS registration cards. In the 5th Edition of *Operations Management*, Dan Reid and Nada Sanders have strengthened their commitment to improve the teaching and learning experience in the introductory operations management course. The text provides a solid foundation of *Operations Management* with clear, guided instruction and a balance between quantitative and qualitative concepts. Through an integrated approach, the authors illustrate how all business students will interact with *Operations Management* in future careers. With its abundance of step-by-step solved problems, concepts, and examples of major real-world companies, this text brings unparalleled clarity and transparency to the course. The failure of increasing numbers of young people to attain even minimum levels of literacy signals a catastrophe at the deepest levels of our culture. *A Is for Ox* is an important

and impassioned work that both proves this conclusion and suggests what can be done to change it. Three grizzled cowboys—Dwight, Darryl, and Dub—are stuck out on the range at Christmastime, roping steers and wrestling longhorns. Reminiscing about their childhood Christmases, they try to make the cowboy camp feel festive—and it's no surprise that a cactus decorated with tin cans, and cows dressed as reindeer, don't fill them with holiday cheer! But a surprise is in store for the Circle D dudes when Santa pays a visit to the cowboy campfire! Illustrated by award-winning artist John Manders, this deluxe hardcover gives consumers what they expect from Golden Books: a high-quality book at a great value, ready for gift-giving. "Thank you, Catherine Sanders, for giving us a book that few others could have written. Every page speaks both the depth of your compassion and the breadth of your knowledge. This book will be a wise companion on the difficult journey from loss to recovery." — Robert Kastenbaum, Ph.D., author of *The Psychology of Death* "How to Survive the Loss of a Child is a godsend to those in the field as well as to those of us in need of such a resource for our own mourning." — Eugene Knott, Ph.D., University of Rhode Island "Dr. Sanders' insights are profound and poignant." — Patricia Geiger, M.D., pediatrician, Boone, North Carolina "Thank you so much for all that you do for bereaved parents but especially for writing *How to Survive the Loss of a Child*. I know that it has changed lives. It changed

mine!" — Nancy Ulmer, bereaved parent, Kindermourn, Charlotte, North Carolina It is only through experiencing grief that bereaved parents ultimately heal. Moving through the phases of grief, the bereaved person works toward restoration. Understanding these phases, knowing what to expect, and learning what they can do to help themselves give parents greater assurance and comfort. In *How to Survive the Loss of a Child*, Dr. Sanders, a bereaved parent herself, offers grieving parents practical help and emotional support. This book also helps family members, friends, and caregivers relate to grieving parents and aids them, too, in understanding the process of healing through grief. SPORTS AND ENTERTAINMENT MARKETING. 3E incorporates feedback from instructors across the country and has expanded by three chapters. The popular sports and entertainment topics continue to be the foundation for teaching marketing concepts. Each marketing function is incorporated throughout the text and is highlighted with an icon to indicate how it is used in the marketing process. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Pain is the most common symptom bringing a patient to a physician's attention. Physicians training in pain medicine may originate from different disciplines and approach the field with varying backgrounds and experience. This book captures the theory and evidence-based

practice of behavioral, psychotherapeutic and psychopharmacological treatments in modern pain medicine. The book's contributors span the fields of psychiatry, psychology, anesthesia, neurology, physical medicine and rehabilitation, and nursing. Thus the structure and content of the book convey the interdisciplinary approach that is the current standard for the successful practice of pain management. The book is designed to be used as a text for training fellowships in pain medicine, as well as graduate courses in psychology, nursing, and other health professions. Examines the history of New York City, from 1609 to the September 11th terrorist attack and its aftermath, with interviews and essays. Winner of the 2019 Whirling Prize "Strong on science but just this side of poetry." —Nature A beautifully illustrated exploration of the principles, laws, and wonders that rule our universe, our world, and our daily lives, from the New York Times bestselling creator of *Lost in Translation* Have you ever found yourself wondering what we might have in common with stars, or why the Moon never leaves us? Thinking about the precise dancing of planets, the passing of time, or the nature of natural things? Our world is full of unshakable mystery, and although we live in a civilization more complicated than ever, there is simplicity and reassurance to be found in knowing how and why. From the New York Times bestselling creator of *Lost in Translation*, *Eating the Sun* is a delicately existential, beautifully illustrated, and

welcoming exploration of the universe—one that examines and marvels at the astonishing principles, laws, and phenomena that we exist alongside, that we sit within. “[A] lyrical and luminous celebration of science and our consanguinity with the universe. . . . Playful and poignant.” —Brain Pickings JUNIOR LIBRARY GUILD SELECTION • Celebrate Pride and its iconic rainbow flag—a symbol of inclusion and acceptance around the world—with the very first picture book to tell its remarkable and inspiring history! "Pride is a beacon of (technicolor) light." --Entertainment Weekly In this deeply moving and empowering true story, young readers will trace the life of the Gay Pride Flag, from its beginnings in 1978 with social activist Harvey Milk and designer Gilbert Baker to its spanning of the globe and its role in today's world. Award-winning author Rob Sanders's stirring text, and acclaimed illustrator Steven Salerno's evocative images, combine to tell this remarkable - and untold - story. A story of love, hope, equality, and pride. Who knew fighting for a living wage could be so deadly? Bernie Sanders and his Gen Z intern are drawn into a murder investigation in a small Vermont town in this hilarious spin on cozy mysteries from the New York Times bestselling author of Hope Never Dies: An Obama Biden Mystery. Fall is bursting out all over Vermont, and while the rest of the Congress enjoys its recess, Senator Bernie Sanders has returned to his beloved home state for a weekend of events in Eagle Creek,

“America’s #1 Leaf Peeping Destination.” It’s up to intern and Eagle Creek native Crash Robertson to keep the senator on schedule—and out of trouble. Crash’s hopes for a quiet homecoming are dashed, however, when the lifeless body of a community banker with ties to “Big Maple” is found in Lake Champlain. While the sheriff’s department closes the case as an accident, a leaked autopsy indicates foul play...with a trail of syrup leading directly to one of the senator’s oldest friends. Bernie, taking a page from the cozy mysteries he’s addicted to, enlists Crash in a quest to uncover the killer’s true identity. If Crash allows the senator to go too far off-script, it will be the end of her yet-to-begin political career. But as the suspect list grows to include a tech bro set on “disrupting” the maple syrup industry, struggling small-business owners, and even Crash’s own family, she realizes there’s more on the line than her own future. If the unlikely duo can’t solve the mystery of the Maple Murderer before they strike again, Bernie’s life-long fight for justice may come to an unplanned end. This (totally fictional!) mystery also features recipes from Eagle Creek’s Vermont Country Shed, including Vermont Cheddar Mac & Cheese, “Feel the Bern!” Maple Sriracha Hot Sauce, and more! Since the beginning of mankind on Earth, if the “busyness” process was successful, then some form of benefit sustained it. The fundamentals are obvious: get the right inputs (materials, labor, money, and ideas); transform them into

highly demanded, quality outputs; and make it available in time to the end consumer. Illustrating how operations relate to the rest of the organization, Production and Operations Management Systems provides an understanding of the production and operations management (P/OM) functions as well as the processes of goods and service producers. The modular character of the text permits many different journeys through the materials. If you like to start with supply chain management (Chapter 9) and then move on to inventory management (Chapter 5) and then quality management (Chapter 8), you can do so in that order. However, if your focus is product line stability and quick response time to competition, you may prefer to begin with project management (Chapter 7) to reflect the continuous project mode required for fast redesign rapid response. Slides, lectures, Excel worksheets, and solutions to short and extended problem sets are available on the Downloads / Updates tabs. The project management component of P/OM is no longer an auxiliary aspect of the field. The entire system has to be viewed and understood. The book helps students develop a sense of managerial competence in making decisions in the design, planning, operation, and control of manufacturing, production, and operations systems through examples and case studies. The text uses analytical techniques when necessary to develop critical thinking and to sharpen decision-making skills. It makes

production and operations management (P/OM) interesting, even exciting, to those who are embarking on a career that involves business of any kind. This package includes a copy of ISBN 9781118122679 and a registration code for the WileyPLUS course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires WileyPLUS. For customer technical support, please visit <http://www.wileyplus.com/support>. WileyPLUS registration cards are only included with new products. Used and rental products may not include WileyPLUS registration cards. In the 5th Edition of Operations Management, Dan Reid and Nada Sanders have strengthened their commitment to improve the teaching and learning experience in the introductory operations management course. The text provides a solid foundation of Operations Management with clear, guided instruction and a balance between quantitative and qualitative concepts. Through an integrated approach, the authors illustrate how all business students will interact with Operations Management in future careers. This fluent and comprehensive field guide responds to increased interest, across the humanities, in the ways in which digital technologies can disrupt and open up new research and pedagogical avenues. It is designed to help scholars and students engage with their subjects using an audio-visual grammar, and to allow readers to efficiently gain the technical and theoretical skills

necessary to create and disseminate their own trans-media projects. *Documentary Making for Digital Humanists* sets out the fundamentals of filmmaking, explores academic discourse on digital documentaries and online distribution, and considers the place of this discourse in the evolving academic landscape. The book walks its readers through the intellectual and practical processes of creating digital media and documentary projects. It is further equipped with video elements, supplementing specific chapters and providing brief and accessible introductions to the key components of the filmmaking process. This will be a valuable resource to humanist scholars and students seeking to embrace new media production and the digital landscape, and to those researchers interested in using means beyond the written word to disseminate their work. It constitutes a welcome contribution to the burgeoning field of digital humanities, as the first practical guide of its kind designed to facilitate humanist interactions with digital filmmaking, and to empower scholars and students alike to create and distribute new media audio-visual artefacts. "Today, companies are competing in a very different environment than they were only a few years ago. Rapid changes such as a globally interconnected environment, the Internet, big data analytics, advances in technology, and sustainability imperatives have required businesses to adapt their standard practices. Operations management (OM) is the critical

function through which companies can succeed in this competitive landscape. Operations management concepts are not confined to one department. Rather, they are far-reaching, affecting every functional aspect of the organization. Whether studying accounting, finance, human resources, information technology, management, marketing, or purchasing, students need to understand the critical impact operations management has on any business"-- How charter schools have taken hold in three cities—and why parents, teachers, and community members are fighting back Charter schools once promised a path towards educational equity, but as the authors of this powerful volume show, market-driven education reforms have instead boldly reestablished a tiered public school system that segregates students by race and class. Examining the rise of charters in New Orleans, Chicago, and New York, authors Raynard Sanders, David Stovall, and Terrenda White show how charters—private institutions, usually set in poor or working-class African American and Latinx communities—promote competition instead of collaboration and are driven chiefly by financial interests. Sanders, Stovall, and White also reveal how corporate charters position themselves as “public” to secure tax money but exploit their private status to hide data about enrollment and salaries, using misleading information to promote false narratives of student success. In addition to showing how charter school expansion can

deprive students of a quality education, the authors document several other lasting consequences of charter school expansion: • the displacement of experienced African American teachers • the rise of a rigid, militarized pedagogy such as SLANT • the purposeful starvation of district schools • and the loss of community control and oversight A revealing and illuminating look at one of the greatest threats to public education, *Twenty-First-Century Jim Crow Schools* explores how charter schools have shaped the educational landscape and why parents, teachers, and community members are fighting back. Supply chain management, rapidly-advancing and growing ever more important in the global business climate, requires an intense understanding of both underlying principles and practical techniques. Including both a broad overview of supply chain management and real-world examples of SCM in companies ranging from small to large, this book provides students with both the foundational material required to understand the subject matter and practical tips that demonstrate how the latest techniques are being applied. Spanning functional boundaries, this well-regarded book is now in its second edition and has quickly become a standard course text at many universities. This newest edition continues to provide a balanced, integrative, and business-oriented viewpoint of the material, and deeply explores how SCM is intertwined with other organizational functions. New material has

been added to address the importance of big data analytics in SCM, as well as other technological advances such as 3-D printing, cloud computing, machine learning, driverless vehicles, the Internet of Things, RFID, and others. This package includes a copy of ISBN 9781118122679 and a registration code for the WileyPLUS course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires WileyPLUS. For customer technical support, please visit <http://www.wileyplus.com/support>. WileyPLUS registration cards are only included with new products. Used and rental products may not include WileyPLUS registration cards. In the 5th Edition of *Operations Management*, Dan Reid and Nada Sanders have strengthened their commitment to improve the teaching and learning experience in the introductory operations management course. The text provides a solid foundation of *Operations Management* with clear, guided instruction and a balance between quantitative and qualitative concepts. Through an integrated approach, the authors illustrate how all business students will interact with *Operations Management* in future careers. Video games, even though they are one of the present's quintessential media and cultural forms, also have a surprising and many-sided relation with the past. From seminal series like *Sid Meier's Civilization* or *Assassin's Creed* to innovative indies like *Never Alone* and *Herald*, games have integrated

heritages and histories as key components of their design, narrative, and play. This has allowed hundreds of millions of people to experience humanity's diverse heritage through the thrill of interactive and playful discovery, exploration, and (re-)creation. Just as video games have embraced the past, games themselves are also emerging as an exciting new field of inquiry in disciplines that study the past. Games and other interactive media are not only becoming more and more important as tools for knowledge dissemination and heritage communication, but they also provide a creative space for theoretical and methodological innovations. *The Interactive Past* brings together a diverse group of thinkers -- including archaeologists, heritage scholars, game creators, conservators and more -- who explore the interface of video games and the past in a series of unique and engaging writings. They address such topics as how thinking about and creating games can inform on archaeological method and theory, how to leverage games for the communication of powerful and positive narratives, how games can be studied archaeologically and the challenges they present in terms of conservation, and why the deaths of virtual Romans and the treatment of video game chickens matters. The book also includes a crowd-sourced chapter in the form of a question-chain-game, written by the Kickstarter backers whose donations made this book possible. Together, these exciting and enlightening examples provide a convincing

case for how interactive play can power the experience of the past and vice versa. "Binged Making a Murderer? Try . . . [this] riveting portrait of a tragic, preventable crime." -- Entertainment Weekly Finalist for the Edgar Award for Best Fact Crime Finalist for the Dayton Literary Peace Prize A Pulitzer Prize-winning reporter's gripping account of one young man's path to murder--and a wake-up call for mental health care in America On a summer night in 2009, three lives intersected in one American neighborhood. Two people newly in love--Teresa Butz and Jennifer Hopper, who spent many years trying to find themselves and who eventually found each other--and a young man on a dangerous psychological descent: Isaiah Kalebu, age twenty-three, the son of a distant, authoritarian father and a mother with a family history of mental illness. All three paths forever altered by a violent crime, all three stories a wake-up call to the system that failed to see the signs. In this riveting, probing, compassionate account of a murder in Seattle, Eli Sanders, who won a Pulitzer Prize for his newspaper coverage of the crime, offers a deeply reported portrait in microcosm of the state of mental health care in this country--as well as an inspiring story of love and forgiveness. Culminating in Kalebu's dangerous slide toward violence--observed by family members, police, mental health workers, lawyers, and judges, but stopped by no one-- While the City Slept is the story of a crime of opportunity and of the string of missed

opportunities that made it possible. It shows what can happen when a disturbed member of society repeatedly falls through the cracks, and in the tradition of *The Other Wes Moore* and *The Short and Tragic Life of Robert Peace*, is an indelible, human-level story, brilliantly told, with the potential to inspire social change. From the author of *Eating the Sun*, an artistic collection of more than 50 drawings featuring unique, funny, and poignant foreign words that have no direct translation into English Did you know that the Japanese language has a word to express the way sunlight filters through the leaves of trees? Or that there's a Finnish word for the distance a reindeer can travel before needing to rest? *Lost in Translation* brings to life more than fifty words that don't have direct English translations with charming illustrations of their tender, poignant, and humorous definitions. Often these words provide insight into the cultures they come from, such as the Brazilian Portuguese word for running your fingers through a lover's hair, the Italian word for being moved to tears by a story, or the Swedish word for a third cup of coffee. In this clever and beautifully rendered exploration of the subtleties of communication, you'll find new ways to express yourself while getting lost in the artistry of imperfect translation. An unparalleled and intimate account of Bernie Sanders from one of his most trusted confidants. Bernie Sanders inspires fervent love and, even among his enemies, a measure of grudging respect—yet, curiously, we know little

about who the man really is, with Sanders deliberately keeping the focus on his policies. Now, with *The Fighting Soul*, Ari Rabin-Havt takes us where no profiles or televised interviews have been able to go. As a close advisor and deputy campaign manager on Sanders's most recent—and likely last—presidential campaign, the tireless Rabin-Havt spent more hours between 2017 and 2020 with the Vermont senator than anyone else. Traveling the country for rallies and to support striking workers, the two visited thirty-six states, drove tens of thousands of miles, and ate in countless chain restaurants. One result was a meteoric and galvanizing presidential campaign. Another is *The Fighting Soul*, an unforgettable chronicle of life on the road with Sanders and the first in-depth portrait of this fiercely independent, and famously private, left-wing firebrand. Sanders's second bid for the presidency began in Rabin-Havt's apartment in Washington DC in January 2018. From there, Rabin-Havt offers a behind-the-scenes account of Sanders's run, including his heart attack in Las Vegas, his notorious debate encounter with fellow-progressive Elizabeth Warren, and a momentous conversation between Sanders and Barack Obama that has never been reported before. At every step, Rabin-Havt shows us Bernie Sanders when the cameras turn off: his dry sense of humor; his views of his young supporters; the pivotal role his wife, Jane, plays in every decision he makes; and more. Delving into Sanders's life and career, with moving

glimpses of his childhood in Brooklyn and first forays into politics in Burlington, Rabin-Havt discloses that Sanders is shocked by his ascent: "Ari, my parents would tell me I was crazy if I told them I would become a senator, much less could become president of the United States." Though his campaign ended in abrupt and unexpected defeat, Sanders has pushed the Democratic Party to the left and helped remake American politics—as Rabin-Havt suggests, he has done more to shape our history than anyone else who has not reached the White House. Revelatory and heartfelt, *The Fighting Soul* depicts the rare politician motivated by principle, not power. Among evidence-based therapies for children and adolescents with oppositional, aggressive, and antisocial behavior, parent management training (PMT) is without peer; no other treatment for children has been as thoroughly investigated and as widely applied. Here, Alan E. Kazdin brings together the conceptual and empirical bases underlying PMT with discussions of background, principles, and concepts, supplemented with concrete examples of the ways therapists should interact with parents and children. The second half of the book is a PMT treatment manual. The manual details the particulars of the therapy: what is done to and by whom, what the therapist should say, and what to expect at each stage of treatment. It also contains handouts, charts, and aides for parents. A companion website (www.oup.com/us/pmt) provides additional

resources for clinicians. Readable in fifty-eight minutes: Traditional Eastern wisdom and real-life business experience come together in this brief and practical guide, which offers a step-by-step plan that will help readers adopt a more successful way of working and living. *KARMIC MANAGEMENT* is a little book with a revolutionary message. It turns traditional business mentality on its head by stating simply that helping others become successful—suppliers, customers, even competitors—is the real key to success in life as well as in business. Drawing from their own entrepreneurial experiences, the authors explain how, in eight basic steps that take less than one hour in total, readers can learn to apply *KARMIC MANAGEMENT* to meet goals, both personal and professional. Each lesson opens with a quotation from a Buddhist text and explains how it applies to life and work in the twenty-first century. The authors show readers how to identify the things that aren't working for them, discover their most valuable assets, and use their new insights to improve the lives of others. To-do lists throughout the book provide practical tools and exercises, and real-life examples highlight the power of *KARMIC MANAGEMENT* to make dreams come true. Patient-centered, high-quality health care relies on the well-being, health, and safety of health care clinicians. However, alarmingly high rates of clinician burnout in the United States are detrimental to the quality of care being provided, harmful to individuals in the

workforce, and costly. It is important to take a systemic approach to address burnout that focuses on the structure, organization, and culture of health care. *Taking Action Against Clinician Burnout: A Systems Approach to Professional Well-Being* builds upon two groundbreaking reports from the past twenty years, *To Err Is Human: Building a Safer Health System* and *Crossing the Quality Chasm: A New Health System for the 21st Century*, which both called attention to the issues around patient safety and quality of care. This report explores the extent, consequences, and contributing factors of clinician burnout and provides a framework for a systems approach to clinician burnout and professional well-being, a research agenda to advance clinician well-being, and recommendations for the field. Compartment syndrome is a complex physiologic process with significant potential harm, and though an important clinical problem, the basic science and research surrounding this entity remains poorly understood. This unique open access book fills the gap in the knowledge of compartment syndrome, re-evaluating the current state of the art on this condition. The current clinical diagnostic criteria are presented, as well as the multiple dilemmas facing the surgeon. Pathophysiology, ischemic thresholds and pressure management techniques and limitations are discussed in detail. The main surgical management strategy, fasciotomy, is then described for both the upper and lower extremities, along with wound care.

Compartment syndrome due to patient positioning, in children and polytrauma patients, and unusual presentations are likewise covered. Novel diagnosis and prevention strategies, as well as common misconceptions and legal ramifications stemming from compartment syndrome, round out the presentation. Unique and timely, **Compartment Syndrome: A Guide to Diagnosis and Management** will be indispensable for orthopedic and trauma surgeons confronted with this common yet challenging medical condition. Featuring an ideal balance of managerial issues and quantitative techniques, this introduction to operations management keeps pace with current innovations and issues in the field. It presents the concepts clearly and logically, showing readers how OM relates to real business. The new edition also integrates the experiences of a real company throughout each chapter to clearly illustrate the concepts. Readers will find brief discussions on how the company manages areas such as inventory and forecasting to provide a real-world perspective. Operations management is important, exciting, challenging ... and everywhere you look! Important, because it enables organisations to provide services and products that we all need Exciting, because it is central to constant changes in customer preference, networks of supply and demand, and developments in technology Challenging, because solutions must be must be financially sound, resource-efficient, as well as environmentally and socially

responsible And everywhere, because in our daily lives, whether at work or at home, we all experience and manage processes and operations.
