O Direito Internacional da Segurança é um livro de natureza pedagógica, destinado ao ensino universitário, especificamente concebido para os cursos de mestrado e doutoramento em Direito e Segurança que a Faculdade de Direito da Universidade Nova tem vindo a desenvolver. Mas ao mesmo tempo apresenta-se útil aos especialistas nas Ciências da Segurança, cujas reflexão e prática são hoje cada vez mais impulsionadas e limitadas por normas e princípios de Direito Internacional Público, que assim vai ocupando um espaço determinante na busca da paz e da segurança da comunidade internacional. Eis um setor do Direito que não pode ainda ignorar as relações que mantém não apenas com outros setores jurídico-normativos internos - o Direito Constitucional e o Direito Penal - como também outras áreas científicas não normativas - aqui se realçando a Ciência Política e as Relações Internacionais. É assim que se procura dar resposta às novas exigências que hoje se colocam num Mundo que surge como definitivamente globalizado a partir de um paradigma personalista que gradualmente vai também moldando os comportamentos e as decisões internacionais, mesmo aquelas que à primeira vista parecem apenas fundadas em critérios puramente político-militares. This manual implements Air Force Policy Directive (AFPD) 36-28, Awards and Decorations Programs; and AFPD 36-31, Personal Affairs. This manual governs the Air Force special trophies, awards, decorations and memorialization programs. It applies to Regular Air Force, Air Force Reserve and Air National Guard personnel; and where specified applies to Air Force civilian employees paid through appropriated funds. In collaboration with the Chief of Air Force Reserve (AF/RE) and Director of the Air National Guard (NGB/CF), the Deputy Chief of Staff for Manpower, Personnel, and Services (AF/A1) develops personnel policy for the Air Force Awards and Memorialization Program. Ensure all records created as a result of processes prescribed in this publication are maintained in accordance with Air Force Manual (AFMAN) 33-363, Management of Records, and disposed of in accordance with the Air Force Records Disposition Schedule located in the Air Force Records Information Management System. Includes annual summary and 11 supplements. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. The Manual of Engineering Drawing has long been recognised as the student and practising engineer's guide to producing engineering drawings that comply with ISO and British Standards. The information in this book is equally applicable to any CAD application or manual drawing. The second edition is fully in line with the requirements of the new British Standard BS8888: 2002, and will help

engineers, lecturers and students with the transition to the new standards. BS8888 is fully based on the relevant ISO standards, so this book is also ideal for an international readership. The comprehensive scope of this book encompasses topics including orthographic, isometric and oblique projections, electric and hydraulic diagrams, welding and adhesive symbols, and guidance on tolerancing. Written by a member of the ISO committee and a former college lecturer, the Manual of Engineering Drawing combines up-to-the-minute technical accuracy with clear, readable explanations and numerous diagrams. This approach makes this an ideal student text for vocational courses in engineering drawing and undergraduates studying engineering design / product design. Colin Simmons is a member of the BSI and ISO Draughting Committees and an Engineering Standards Consultant. He was formerly Standards Engineer at Lucas CAV. * Fully in line with the latest ISO Standards * A textbook and reference guide for students and engineers involved in design engineering and product design * Written by a former lecturer and a current member of the relevant standards committees
