Margolis, the sole survivor of her family, escaped from the Vilna Ghetto with other members of the resistance movement, the FPO (United Partisan Organization), and joined the Soviet partisans in the forests of Lithuania to sabotage the Nazis. Her memoir details her life and struggles. A book of readings has long been needed to supplement the many collections of ballads on the market. The essays included in this volume have been carefully selected to make available in one volume many of the basic studies that previously lay widely scattered in the journal literature. They offer the reader a clear view into major areas of ballad scholarship, introduce him to the latest ideas in the field of folksong, and give him an insight into ballads that goes far beyond amateur enthusiasm and entertainment. All the essays are written by internationally recognized authorities, and in each case have become standard statements of the particular thesis they argue. All the essays deal with theory—i.e., with ballad origins, variation, transmission, artistic atmosphere, and music and meter. Each essay is, in the opinion of the editors, important and at the same time difficult for students and seriously interested amateurs to locate. No effort has been made to include materials that are presently in wide distribution or deal with the more technical aspects of ballad scholarship. Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The purpose of this series is to compile a collection of high-quality monographs on language acquisition. The series serves the needs of everyone who wants to know more about the

problem of language acquisition in general and/or about language acquisition in specific contexts. Specifications, Tune ups, Step-by-Step Parts Replacement. Volume III of this outstanding history of Canada's defence and foreign policy is a study of Ottawa's thinking and decisions during the closing years of the Second World War and the opening years of the cold war. Eayrs presents both the events and the personalities who shaped these events. Reproduction of the original: The Lyon in Mourning by Robert Forbes Historical background is provided for such events as Kristallnacht and the Warsaw Ghetto Uprising, and entries on concentration and death camps give details on the nationalities interned, each camp's specific location, and its history. The second Boer War is the most important war in South African history; indeed, without it, South Africa would likely have not existed. But it's also one of the least understood conflicts of the era. Over a century of Leftist bleating and insidious, self-serving revisionism, first by Afrikaner nationalists and then by the apartheid regime, has left the layman with a completely skewed view of the war. Incredibly, most people will tell you that the British attacked the Boers to steal their gold, and that when the clueless, red-jacketed Tommies advanced under orders of bumptious, incompetent British generals they were mowed down in their thousands. Others think of the conflict in terms of 'Britain against South Africa' and many believe that the Boers actually won the war; the marginally more enlightened explain away the Boer defeat by claiming it took millions of British troops to beat them, or that it was only the 'genocide' of the concentration camps which forced the plucky Boers to throw in the towel. It's all bosh. This book will take everything you

thought you 'knew' about the war and turn it on its head. From Kruger's expansionist dream of an Afrikaans empire 'from the Zambesi to the Cape', to the murder and devastation wrought on Natal by his invading commandos, to the savage massacres of thousands of blacks committed by the 'gallant' bitter-einders, the reader will have his eyes opened to the brutal realities of the conflict, and be forced to reassess previously held notions of the rights and wrongs of the war. Hard-hitting and uncomfortable reading for those who do not want their bubble of ignorance burst, Kruger, Kommandos & Kak exposes that side of the Boer War which the apartheid propaganda machine didn't want you to know about.

Have you been diagnosed with diabetes and are looking for help finding a proper diet that can help you improve your health? If yes, this is the right book for you! Diabetes is known to affect many people around the world. According to one study, in 2015, about 28.1 million adults and nearly 586,000 children had diabetes. This is 2.8% of the U.S. population. The CDC also says another 86.4 million adults and 8.6 million children, or about 10.6% of the U.S. population, have prediabetes. Poet and short story writer Blanche Sears hails from the North Eastern Coastal town of South Shields. She graduated in English Language and Literature from Manchester University and obtained a Teaching Diploma from King's College London. After marriage to Tom, a Neurophysiologist, they spent time in Australia where two of their three children were born. On returning to England she resumed her teaching career then enjoyed with Tom his working visits to

Norway, Germany, Japan and the USA. Family aside, her lifelong interests have been centred on Literature, Music and History, as reflected in her poetry. This book offers a comprehensive overview of resilience across immigrant and refugee populations. It examines immigrant and refugee strengths and challenges and explores what these experiences can impart about the psychology of human resilience. Chapters review culture functions and how they can be used as a resource to promote resilience. In addition, chapters provide evidence-based approaches to foster and build resilience. Finally, the book provides policy recommendations on how to promote the well-being of immigrant and refugee families. Topics featured in this book include: Methods of cultural adaptation and acculturation by immigrant youth. Educational outcomes of immigrant youth in a European context. Positive adjustment among internal migrants. Experiences of Syrian and Iraqi asylum seekers. Preventive interventions for immigrant youth. Fostering cross-cultural friendships with the ViSC Anti-Bullying Program. Contextualizing Immigrant and Refugee Resilience is a must-have resource for researchers, professors, graduate students as well as clinicians, professionals, and policymakers in the fields of developmental, social, and cross-cultural psychology, parenting and family studies, social work, and all interrelated disciplines. In the 1930s, as her second marriage approaches, a brilliant and independent sculptor faces tensions between her art and everyday life in this novel by the author of *The Good Earth*. This *Proud Heart* narrates the experience of a gifted sculptor and her struggle to reconcile her absorbing career with society's domestic expectations. Susan Gaylord is talented, loving, equipped with a strong moral sense,

and adept at anything she puts her hand to, from housework to playing the piano to working with marble and clay. But the intensity of her artistic calling comes at a price, isolating her from other people—at times, even from her own family. When her husband dies and she remarries, she finds herself once again comparing the sacrifice of solitude to that of commitment. With a heroine who is naturalistic yet compellingly larger than life, *This Proud Heart* is incomparable in its sympathetic study of character. This ebook features an illustrated biography of Pearl S. Buck including rare images from the author's estate. What the author chiefly aimed to do is to assess the main developments in the humanities in the Canadian universities since 1947, to describe roughly where we stand now, and to suggest the nature of the problems facing us today and in the immediate future.
