**Fierce Love** Jul 10 2021 A healing antidote to our divisive culture, full of evocative storytelling, spiritual wisdom, and nine essential daily practices—by the first female, Black senior minister at the historic Collegiate Churches of New York "Fierce Love teaches us that with spiritual faith we can transcend the darkest moments and come through stronger."—Gabrielle Bernstein, #1 New York Times bestselling author of *The Universe Has Your Back* We are living in a world divided. Race and ethnicity, caste and color, gender and sexuality, class and education, religion and political party have all become demographic labels that reduce our differences to simplistic categories in which "we" are vehemently against "them." But Rev. Dr. Jacqui Lewis's own experience—of being the first female and first Black minister in her church's history, of being in an interracial marriage, and of making peace with childhood abuse—illustrates that our human capacity for empathy and forgiveness is the key to reversing these ugly trends. Inspired by the tenets of ubuntu—the Zulu philosophy that we are each impacted by the circumstances that impact those around us, and that the world won't get better until we all get better—Fierce Love lays out the nine daily practices for breaking through tribalism and engineering the change we seek. From downsizing our emotional baggage to speaking truth to power to fueling our activism with joy, it demonstrates the power of small, morally courageous steps to heal our own lives, our posse, and our larger communities. Sharing stories that trace her personal reckoning with racism as well as the arc of her journey to an inclusive and service-driven faith, Dr. Lewis shows that kindness, compassion, and inclusive thinking are muscles that can be exercised and strengthened. With the goal of mending our inextricable human connection, Fierce Love is a manifesto for all generations: a bighearted, healing antidote to our rancorous culture.

**A Gift of Love** Nov 13 2021 The classic collection of sixteen sermons preached and compiled by Dr. King As Dr. King prepared for the Birmingham campaign in early 1963, he drafted the final sermons for *Strength to Love*, a volume of his best-known homilies. King had begun working on the sermons during a fortnight in jail in July 1962. Having been arrested for holding a prayer vigil outside Albany City Hall, King and Ralph Abernathy shared a jail cell for fifteen days that was, according to King, “dirty, filthy, and ill-equipped” and “the worse I have ever seen.” While behind bars, he spent uninterrupted time preparing the drafts for classic sermons such as “Loving Your Enemies,” “Love in Action,” and “Shattered Dreams,” and continued to work on the volume after his release. *A Gift of Love* includes these classic sermons, along with two new preachings. Collectively they present King’s fusion of Christian teachings and social consciousness, and promote his prescient vision of love as a social and political force for change.

**A Body Made to Win** Feb 26 2023 The past year-plus has shown that medicine does not have all the answers despite its many advances. A pandemic, COVID-19, a phenomenon that seems to happen once in a century, has caused our medical system to buckle and initially baffled our scientists. Worldwide, it has impacted all of us in one way or another, whether we got the disease or not—loss of loved ones, loss of work, isolation, mental fatigue, loss of health even after recovery and the list goes on. This book is a guide for people who believe the human body has the power to heal itself. The information and recommendations found here focus on the human body's—the ultimate machine—ability to recover and survive from anything threatening its well-being, even COVID-19. Dr. Love has used her own battle with the Beast to illustrate how a body built around a robust immune system can avoid or minimize the effects of any threat, infection, or other insults on its own without medical intervention.

**Small Wonders** Aug 30 2020 Childhood can be an exciting time, full of joyous exploration, new skills, friends, and imaginative play. It can also be very frightening, especially when children have experiences that threaten their feelings of safety and well-being. Even common traumatic childhood events can deeply affect children's normal healthy development, their self-esteem, and their families. Many behavioral problems stemming from common traumatic events could require years of psychotherapy or medication. That is, they did -- until the advent of EMDR. Developed by psychologist Francine Shapiro in the late 1980s, EMDR had already helped thousands of adult clients when Joan Lovett experienced its healing power firsthand. Eye movement desensitization and reprocessing (EMDR) is a comprehensive therapeutic approach that helps patients release disturbing thoughts and emotions that originate in traumatic experiences. Experiences can be traumatic in the commonly accepted sense -- abuse, disasters, violence -- but children may also perceive and respond to more ordinary events as very threatening. A playground accident, the loss of a loved one, school problems, or choking on a piece of popcorn can be a part of growing up. They can also be critical incidents that cause a child to view him- or herself as helpless or powerless, to become fearful, and to develop debilitating behavioral problems. In *Small Wonders: Healing Childhood Trauma with EMDR*, Joan Lovett, M.D., shares engaging clinical stories -- mysteries involving children who present her with puzzling and disturbing behaviors. She imaginatively focuses her knowledge of pediatrics, play therapy, and EMDR to alleviate the real-life ordeals of real-life children. Featuring a foreword by Francine Shapiro, *Small Wonders* is the most comprehensive and insightful book to explore the potential of EMDR for child therapy. This enlightening book is intended for parents who are concerned with having their children feel confident, for adults who want insights into the way the events of their childhood shaped their self-image, and for professionals who want to know more about EMDR and how it can be adapted to meet the special needs of traumatized children.

**What Makes Love True?** Mar 25 2020 This is a book that can reach any person. It is a simple truth about what seems to be a complicated subject. By using these points it will cultivate deepen and develop a bond and emotion in the relation of love. This study was designed for frequent referencing when needing a reminder of what is love. It is my hope that reading this book will elevate the mind and the heart to put these facts about love to the test and ill enhance all other studies one might have on this subject. Love is a commitment to responsibility and the responsibility to commit. There is an unending supply of manuscripts depicting love. Could it be that there is someone else writing about love? After all, with all of the printed information about love, is there a need for or even room for one more thought concerning the subject of *What Is Love?* This book evolves from tragic circumstances. It is an attempt to give real meaning to the question, what is love? By no means am I trying to say that this is the only revelation of love, or the only answer to the question. What I wanted to communicate to the reader or the listener is that there are some absolutes that are real and tangible regarding the meaning of love. The ten points being made in this book are brought from the Bible and can be practiced by Christians and non-Christians alike. That is because the principles apply to both Christians and non-Christians. They are like laws that govern relationships. I had listed a few more than these ten points but I felt that the points in this book were the most important ones, and they covered a broader perspective. Each chapter has been divided into five sections. The first section is the defining point. The second section provides scriptural references from a biblical text for the point being made. The third section has a discussion that is explained in a few paragraphs. The fourth section is an applied marriage

application, hopefully able to be applied to today's marriages. And last but not least the fifth section is a question and answer section. The section ends with a discussion for the husband and the wife to participate in, and also includes a thought for the single person to ponder. It is my sincerest desire that after reading this thesis that the question of what is love can be answered, and that there will be a complete satisfaction that needs no further investigation.

**Attached** Jan 04 2021 "Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

*Love v. Regency* Jan 16 2022 In this trademark infringement case, Dr. Stanley Love, a dermatologist, alleges that Regency Plastic Surgery, PC, has infringed his common-law trademark of the "The Love Look" by using "The Look of Love" as its marketing slogan. Dr. Love is seeking injunctive relief and damages. For more than a decade, Dr. Stanley Love, a dermatologist, has marketed his cosmetic surgery practice with "The Love Look" as his slogan. Regency, a New York City practice that has opened branches around the country, registered the service mark "The Look of Love" with the U.S. Patent and Trademark Office and began using the slogan in all its marketing. Regency opened a branch practice in Dr. Love's area about two years ago. Regency denies liability, claiming that Dr. Love had no common-law trademark because "The Love Look" is merely descriptive and therefore Dr. Love could acquire no common-law trademark rights in the slogan. Regency also claims that even if "The Love Look" has acquired trademark protection, Regency did not infringe the trademark. Finally, Regency claims that Dr. Love's claims are barred by laches and the statute of limitations. The *Love v. Regency* case file contains the following witnesses: Four fact witnesses (two per side) Two liability expert witnesses Two damages expert witnesses Because of growing media influence on litigation, the second edition of *Love v. Regency* also contains internet exhibits including: ·Websites for both businesses ·Facebook pages of customers ·Yelp-style reviews The author has created a teaching manual to help the professor with testimony and to highlight special impeachment problems. **We Want to Do More Than Survive** Mar 30 2023 Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories, research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination, boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

**Dr. Susan Love's Menopause and Hormone Book** Nov 25 2022 In the first edition of this important bestselling book, praised by *Newsday* as "the bible for a whole generation of menopausal women," renowned physician and pioneering women's health advocate Dr. Susan Love warned about the potential dangers of the long-term prescription of hormone replacement therapy. Her insightful words of caution have been backed up by the stunning results of the recent studies on hormone replacement. In this revised edition, Dr. Love offers a remarkably clear set of guidelines as to what the studies have shown about the risks regarding heart disease, breast cancer, stroke, and other conditions, and what effect hormone therapy has on osteoporosis. She offers definitive expert advice about whether or not to go on hormone replacement therapy and, if so, for how long, as well as how to taper off hormones; and she introduces the alternative methods for treating the symptoms of menopause. Dr. Love stresses that menopause is not a disease that needs to be cured—it is a natural life stage, and every woman ought to choose her own mix of options for coping with symptoms. A questionnaire about your own health history and life preferences helps you develop a program that will best fit your unique needs. With clarity and compassion, she walks you through every option for both the short and the long term, including: • lifestyle changes (diet, exercise, and stress management) • alternative therapies (including herbs and homeopathic remedies) • available medications other than hormones

**The Love Surgeon** Jul 30 2020 Dr. James Burt believed women's bodies were broken, and only he could fix them. In the 1950s, this Ohio OB-GYN developed what he called "love surgery," a unique procedure he maintained enhanced the sexual responses of a new mother, transforming her into "a horny little house mouse." Burt did so without first getting the consent of his patients. Yet he was allowed to practice for over thirty years, mutilating hundreds of women in the process. It would be easy to dismiss Dr. Burt as a monstrous aberration, a modern-day Dr. Frankenstein. Yet as medical historian Sarah Rodriguez reveals, that's not the whole story. *The Love Surgeon* asks tough questions about Burt's heinous acts and what they reveal about the failures of the medical establishment: How was he able to perform an untested surgical procedure? Why wasn't he obliged to get informed consent from his patients? And why did it take his peers so long to take action? *The Love Surgeon* is both a medical horror story and a cautionary tale about the limits of professional self-regulation.
