Nature is in many different ways a pool for the productive human being, but also a counterpoint to his/her own work. This book offers a richly illustrated overview of the history of nature in architecture, civil engineering and art. Das Lessing Yearbook/Jahrbuch 2020 enth ä lt

Beiträge zu Lessings Aristoteles-Lektüre, zum Drama "Philotas" im Kontext des Siebenjährigen Krieges, zum Spiel-Begriff und zur Toleranz-Thematik in "Nathan der Weise", zu Lessings nachgelassenen Blättern zu "Nathan" und zur Rezeption von Lessings Dramen in Amsterdam. Außerdem enthält der Band Aufsätze zur Gefühls-thematik in Joachim Wilhelm von Brawes Drama "Der Freygeist", zur Rolle des Apostels Thomas in Klopstocks "Messias" und zur kognitiven Narratologie in Karl Philipp Moritz "Reisen eines Deutschen in England". Abschließend bietet der Band einen Tagungsbericht zur digitalen Erarbeitung der Texte Lessings. Vol. 48-

published in two parts: Allgemeiner Teil, and Technischer Teil. During the past 20 years the investigation into meaning of natural languages has emerged into one of the most active disciplines in theoretical linguistics. The different traditions of linguistics, philosophy of language and philosophical logic converged in the paradigm of truth conditional semantics, which now plays a central role in the cognitive sciences. From empirical research in particular languages more principal questions arise of how the speaker succeeds in expressing particular types of meaning by use of formal combination of signs. The theories developed to cope with the question assume that for a hearer, the meaning of a complex expression must be "computable", and therefore, modern theoretical semantics uses formal algebraic methods to construct the meaning compositionally in view of syntactic structure. Furthermore, meaning need to be "anchored" in the experience available to hearer. In order to deal with this, theoretical semantics extensively uses the concept of truth conditions, which roughly explain how a world must be structured in order to be matched by certain linguistic expressions. Semantic analyses are complemented by context theory and the theory of speech acts. Thus, linguistic meaning must be related to human cognitive capacities, and therefore, theoretical semantics is tightly connected with philosophical logic as well as cognitive sciences in general. The aim of this handbook is to represent the body of theoretical knowledge which has evolved in the international research of the last two decades. Some of the theories

can now be termed "classical" in that they belong to the commonly accepted base of theoretical semantics. Other theories are still disputed, and there are problems still to be solved - as normal in a more developed science. The authors, who are leading experts in the field of semantics, try to balance the accepted and the questionable results. It goes without saying that each author holds a particular position in this respect. Some articles are written in English, some in German. Since semantics is considered to be a subfield of linguistics, the articles are arranged due to linguistic points of view. In the first 5 chapters (comprising 15 articles) the common principles of semantics are presented: ontological foundations of semantics, composition of meaning, problems of use (context, speech acts, and lexical base of meaning). The next 5 chapters (comprising 25 articles) are concerned with semantic phenomena, theories and problems which are specific for a particular class of linguistic expressions. These are arranged according to parts of speech: nouns, functional categories, verbs, adjectives and so on. This division does not reflect a theoretical position by itself, however it allows one to recognize problems connected with one another. Some more general questions are discussed in more than one article, in different perspective and vicinity. The Handbook is complemented by a service article on formal methods in semantics, followed by a comprehensive bibliography including about 1700 entries, and both a subject and a name index. This handbook is indispensable for all research in linguistics and neighboring disciplines (philosophy of language, cognitive sciences). Some of the articles can serve as basic literature for classes of advanced students. This book examines the premodern encounter between the three monotheistic religions through the unique prism of a premodern literary work—The Parable of the Three Rings—a poignant and charming tale of a father who had three sons and one precious ring. By tradition he was to bequeath the ring to his heir, but he loved his three sons equally – so he had two new rings made, crafted to be indistinguishable from the original, and on his deathbed gave a ring to each son. The narrator explains that the father is God, and his sons are the Jews, the

Christians, and the Muslims, each believing themselves to be the sole upholders of the true religion. A historical and literary study, the book offers a comprehensive discussion of the various guises of the Parable, from the early Middle Ages onwards, and highlights its capacity to reflect openness and pluralism in the interfaith encounter.

Von der Basisoperation, wie beispielsweise einer Kastration, bis hin zu schwierigen Operationen, wie einer Kraniotomie - im "Fossum" findet man alles, was zur Praxis der Kleintierchirurgie gehört. Ob zum Nachschlagen oder zum Abklären aktueller Probleme Chirurgie der Kleintiere lässt keine Fragen offen und ist daher für den chirurgischen Alltag unentbehrlich! Die 5 Top-Herausgeber aus den USA bringen ihr Expertenwissen zu aktuellen Themen, wie minimal-invasiven Chirurgie und Bildgebungsverfahren, ein. Über 2.000 farbige Abbildungen, darunter viele Zeichnungen, verdeutlichen die Inhalte und zeigen chirurgische Abläufe. Tabellen zeigen das Wichtigste auf einen Blick, zahlreiche Kästen heben Inhalte, wie beispielsweise das chirurgische Vorgehen bei Eingriffen, hervor. Diese neue Auflage wurde komplett überarbeitet, aktualisiert und neu strukturiert. Kapitel wurden erweitert, neue kamen hinzu. Entstanden ist ein topaktuelles Werk, das noch stärker auf die praxisrelevanten Fragestellungen von Tierärzten und Studenten der Tiermedizin eingeht. Mit Online-Zugriff auf zahlreiches Video-Material zu Untersuchungen, Arbeitsabläufen sowie physiotherapeutischen Maßnahmen. Drei Ringe - drei Kulturen - und mehr als drei Geheimnisse Alles beginnt damit, dass die 15-jährige Maria während einer Israelfreizeit überraschend auf eine Doppelgängerin trifft, deren Spur sie aber gleich wieder verliert. Nach einer zunächst erfolglos-chaotischen Suche finden sich die beiden doch und stehen ratlos vor ihrer Vergangenheit. Zurück in Deutschland tun sich dunkle Abgründe in der Geschichte von Marias Familie auf. Sie entdeckt, dass drei Kulturen hier auf ungewöhnliche Weise aufeinanderprallen. Doch auch die Gegenwart stellt Maria vor einige Probleme. Sie muss mit Mobbing und dem Verlust von Freundschaft klarkommen. Auf der Suche nach ihrer wahren Herkunft scheinen die Überraschungen kein Ende zu nehmen... Eine ganz neue

Rahmengesichte rund um Lessings Ringparabel für junge Leute ab 14 Jahren In history, Judaism, Christianity and Islam have been both partners and rivals. The well-known parable of the three rings argues in a beautiful paradox how the religion most beloved by the other two will turn out to be in possession of the true ring. This book collects a number of texts in which not just bilateral religious dialogues but the relations between one's own religion and the two others are documented. The texts translated and studied here, date from the medieval period, both from the East and from the West. It brings together in one volume esteemed writers such as the Jews Judah Halevi, Abraham Ibn Daud, Moses Maimonides, and Ibn Kammuna; the Christians John of Damascus, Paul of Antioch, Peter Abelard, Thomas Aquinas and Nicholas of Cusa; and the Muslims 'Abd al-Jabbar, Al-Ghazali, Ibn Qayyim al-Jawziyya, and Nur-al-Din al-Raniri. The shared knowledge of different religious traditions as testified to in some of these texts, may come as a surprise. Basic patterns of mutual understanding, pluralism, tolerance and dialogue - still relevant today - are drafted.
